

Health and Safety Information Sheet

Advance PE Coated Cloth Tapes

Issue: 4

Information prepared: May 2015

Section 1

Identification

Product name: Polythene Coated Cloth Pressure-Sensitive Adhesive Tape

Contact name and address: Advance Tapes International Limited
Westmoreland Avenue
Thurmaston
UK
LE4 8PH

Telephone: +44 (0)116 251 0191 Opening hours (Mon – Fri): 08:30 – 17:00

CAS/EINECS No: N/A

Physical form: Polythene Coated Cloth tape on a roll

Section 2

Hazard Identification

EU Classification: Tapes are classified as 'Articles' under REACH and therefore are not required to meet the requirements of Annex I of regulation EU 453/2010. This document is provided for information only.

EU Symbol: Not required

EU Risk Phrases: None

EU Safety Phrases: None

Section 3

Composition

Polythene coated fabric coated with a pressure sensitive adhesive containing resins and elastomers.

Section 4

First Aid measures

In cases of accidental ingestion, eye contact, persistent skin irritation, or other, seek medical advice.

General: Ingredients which may themselves present a toxic hazard do not normally constitute a hazard when incorporated into the product. Tape is not a hazard in normal circumstances.

Mouth: The tape should not be used in applications such as toys, where ingestion is possible.

Eye: Avoid eye contact, which may result in mechanical abrasion damage.

Skin: May cause irritation to persons with sensitive skins. The tape should not be used in applications where prolonged skin contact is possible e.g. medical plasters, bandages or hand protection tape.

Section 5

Fire Fighting measures

Extinguishing media: Cool with water spray, use any suitable extinguishing media.

Special precautions: The product will burn in a general fire to produce toxic fumes e.g. carbon monoxide. Breathing apparatus may be required.
